CLASSROOM TOOLS & RESOURCES

A close-up photograph of a person's hands interacting with a laptop. The person's right hand is pointing at the screen, while their left hand is on the keyboard. The laptop screen displays a code editor with a dark background and light-colored text, showing lines of code in a programming language. In the background, another laptop is visible, and a blue water bottle sits on the desk. The overall scene suggests a classroom or workshop environment focused on learning and using technology.

SLACK

Slack is a communication platform for students, alumni and instructors to connect.

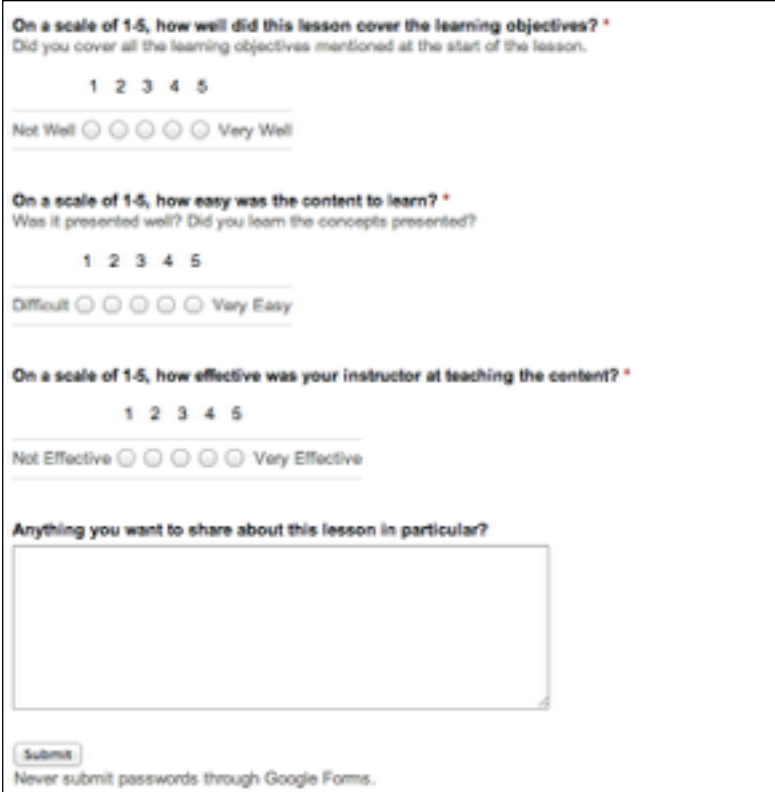

- Invite sent by email to create your Slack account on jsdev2
- Share your Slack handle with instructors
- We'll be using the #general channel for the most part. We may add more later.

EXIT TICKETS

Classroom tool used to better understand real-time student learning. Exit Ticket feedback is collected at the end of each class and is used in the following ways:

- Reviewed by instructional team after every class
- Collect and present data on student learning during class
- Informs instructional team on lesson planning and learning objectives
